9	Service Road from N7 to M1, 9A M50 Link
10	Phoenix Park Luas
7A	MetroDart - Glasnevin to Donabate JNC via Dublin Airport
11	New Dart via S.W Dublin to Adamstown
12	Malahide Rd. Luas

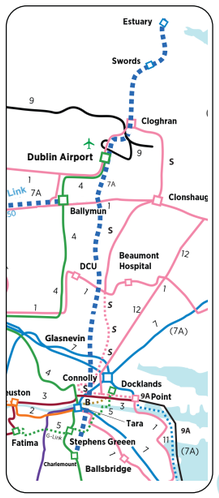

Sidenote - B

A new Dart Line from Dockland Rail station via North Wall Quay into Connolly Station (1 mile) with local station.

NEWTOWN Plan

Serves new and future towns in Dublin, Adamstown, Edge City Town, Westman's Town, N. Dublin Town. Newcastle Town, the triangle of Peamount, Newcastle and Hazelhatch, Dunsink Southwest Dublin. Potential for 250, 000 extra homes. All served by this **one line** including big venues events.

METRO LINK UNDERGROUND

Outter rail later on M1 to N33, On N11 to Rathnew On M7 to beyond Kildare on new line. These lines rejoin original line.

Metro link underground covers small area of Dublin
At massive cost. Uses different rail gauge, taking all users via City centre. Useless for work outside City Centre.
Metro Dart overground benefits all Dublin, All Ireland with rail at little costs.
No need for second Malahide Dart, needed elsewhere.

Map 3 Explanation - Overground Metro Dart direct access to all areas.

Build one new Dart rail line with standard rail gauge through heart of Dublin from Donabate to Park West via Swords and Dublin Airport, thick dotted blue and orange square line 7A and 8 on map 3 (on M50 edge) This links up all existing rail lines. Rest completed later. O.N.E Rail Solution. This allows users from all parts of Dublin and Ireland with rail to have direct and express access to Dublin Airport, to city centre and all-around Dublin, vital for work. Full plan will go around M50 as almost all bus and rail lines cross the M50. Plan self-finances due to maximising public transport usage, using 3 unused rail lines and availing of E.U. funding. Can be completed in 5 years. Fast access Lucan Adamstown to Airport 15 mins. Heuston to Airport 15 mins, Tallaght to Airport 20 mins. Cork to Dublin Airport less than two hours. Solves M50 congestion. A simple inexpensive integrated public transport plan benefiting all Ireland with new towns. (No false usage)
